SUMMARY

I am a software developer with hands-on experience in building Android applications and backend systems. I have worked with Java, Firebase, and real-time data handling. I am interested in system-level programming, networking, and application security, constantly seeking to improve my skills and contribute to innovative projects

EXPERIENCE

Core Java Intern

Internshala

Date period

Internship focused on Java development

- Worked on Java fundamentals, OOP concepts, and problem-solving
- Built small programs to apply logic and structure code

EDUCATION

B.Tech in Computer Science Engineering

Sagar Institute of Research and Technology (RGPV)

08/2025

Diploma in Computer Science Engineering

Govt. Polytechnic Munger

08/2021 - 08/2025

SKILLS

Gmail GitHub Java Google Firebase Bluetooth

Android SDK MVVM HTML CSS JavaScript

Netlify Core Java OOP Python PHP Git

Android Studio Data Structures

PROJECTS

SwiftShare

Date period

SwiftShare – File Transfer Application

- Built a Bluetooth-based file sharing app using Java and Android SDK
- Implemented multi-file selection and stable transfer handling
- Improved reliability across device connections

T-BUS

Date period

T-BUS – Bus Ticket Booking System

- Developed QR-based ticket booking system with Razorpay integration
- Used Firebase for real-time database synchronization
- Implemented QR validation workflow for boarding

NovaBeats

Date period

NovaBeats – Music Player

- Built Android music player using MVVM architecture
- Added playlist, shuffle, and background playback features
- Managed storage efficiently using scoped storage

Portfolio Website

Date period

Portfolio Website

- Created responsive portfolio using HTML, CSS, JavaScript
- Live: abhinaavchauhan.netlify.app
